

AlarmBiller Release Notes

April 2025

Version 4.52.1 **INTERNAL COPY**

NOTE: This is a preliminary version of the release notes. The listed features are targeted for this release; however, not all features are guaranteed to be in the final release. The final release notes will have the finalized list of features.

AlarmBiller®

Application Corrections

AlarmBiller

REVERSED: 35623 User can't adjust parts in warehouses - custom grid layout [55789]

We reversed the fix made for adjusting and transferring parts on custom grid layouts. We will address this issue again in a future update.

57077 Unable to Open or Edit Work Orders – Spinning Wheel Issue [00134844]

Users were unable to create or edit work orders. The application displayed a continuous spinning wheel when attempting to access work orders. We corrected this so users can create and edit work orders.
