

AlarmBiller®

The #1 Billing Software for Security Dealers.

AlarmBiller was developed for security companies to help solve the issues that are holding back their business: multiple software systems, data entry on spreadsheets, manual invoicing, etc. AlarmBiller provides companies with the tools they need to streamline operations and increase efficiency.

► The Power of Automation

AlarmBiller is the cloud-based software solution that provides small- to medium-sized security dealers with recurring billing, accounting, lead management, and more business services in a single application.

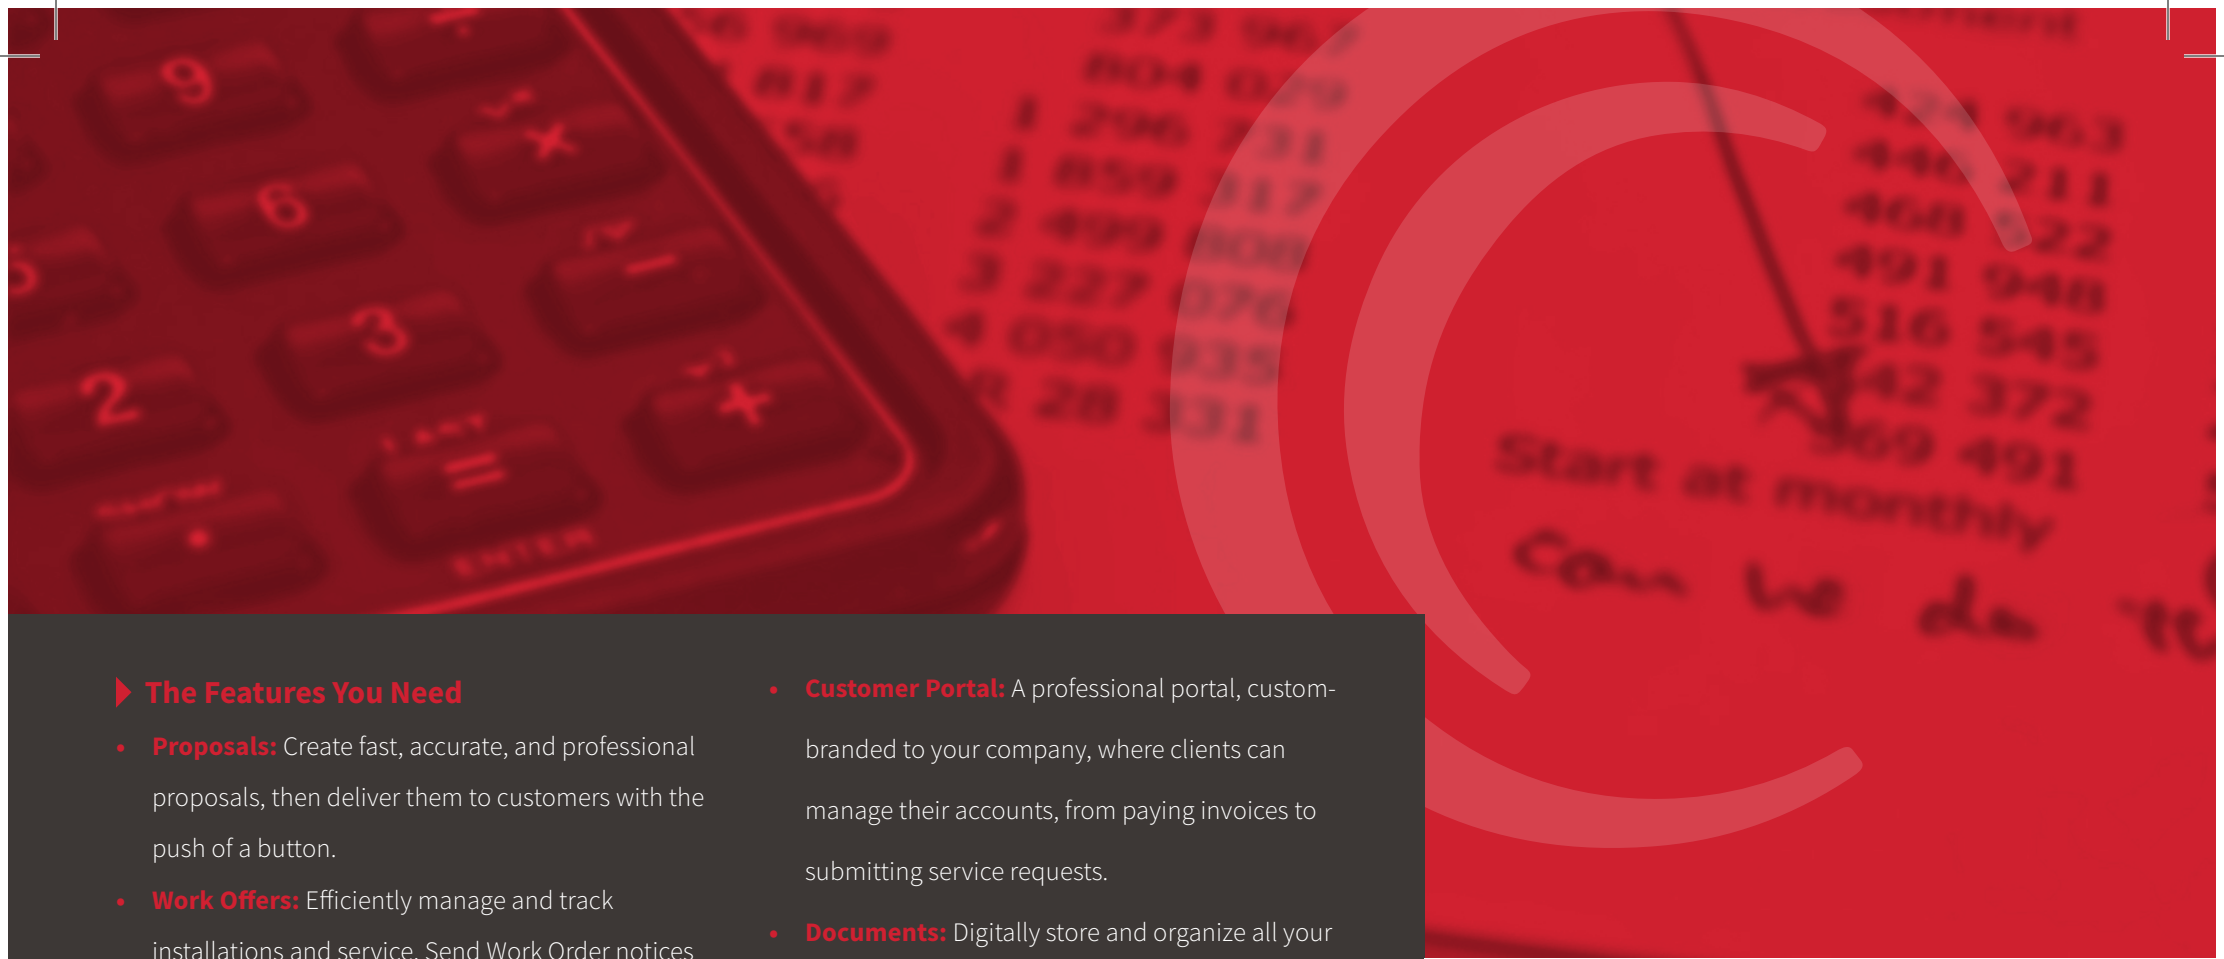

Alarm and security dealers use AlarmBiller to centralize their business operations and maximize their profits. AlarmBiller is easy to use with its robust features and functionality. Create recurring invoices, keep track of appointments, schedule work orders, write proposals, accept payments, generate comprehensive financial reports, and more.

► Enterprise Features, Not Cost

Portable: Access your customer information on any device, anywhere that you have internet connectivity. AlarmBiller is the only 100% web-based management solution for security companies.

Scalable: AlarmBiller will grow with you. Whether you're a startup company or have hundreds or thousands of customers, AlarmBiller will allow your business to flourish. With AlarmBiller there are no limits to the number of customers or users.

Affordable: AlarmBiller is priced right; the monthly fee is based on the number of active customers you have. There are no other hidden fees to use AlarmBiller.

► The Features You Need

- **Proposals:** Create fast, accurate, and professional proposals, then deliver them to customers with the push of a button.
- **Work Orders:** Efficiently manage and track installations and service. Send Work Order notices in advance to let customers know when a tech is on the way, avoid surprises by presenting all billing information up front, and streamline the billing process with auto-generated invoices.
- **Recurring Invoices:** Take the guesswork out of your billing process with AlarmBiller's automated system.
- **Calendar:** Stay on top of sales appointments, work orders, and client needs with an interactive, accessible-from-anywhere calendar.
- **Payments:** AlarmBiller's payment processing capabilities make it easy to accept credit cards and eChecks from any location.
- **Customer Portal:** A professional portal, custom-branded to your company, where clients can manage their accounts, from paying invoices to submitting service requests.
- **Documents:** Digitally store and organize all your files in a single system, then access your customer information, work orders, invoices, and more from anywhere with an internet connection.
- **Reports:** Measure success and pinpoint problem areas with built-in reporting tools.
- **Accounts Payable:** Organize vendors, create payments and checks, and enter bills through a single, accessible system.
- **General Ledger:** Track all your transactions and generate comprehensive financial reports.
