

Available to Service - Marking Parts as Available on the SedonaOffice Mobile App

12/29/2023 12:48 pm EST

Description of Issue:

Customers have added many parts to SedonaOffice and found that they are not available in their Service Application (Sedona-X or FSU).

OR

The box to mark parts as Available to FSU (service) is grayed out and will not allow them to mark the box to make them available to service.

Fixes:

Run script below first:

```
//Select
p.Part_Code As 'Part_Code',
p.Description As 'Part_Description',
p.Service_Part As 'Service_Part',
p.Sales_Part As 'Sales_Part'
From
IN_Part p
Where
p.Part_Id <> 1
Order By
p.Part_Code
```

Next, run script below to update the N (No) value to Y (Yes) value. This will update all parts as available to Service.

```
//update in_part set service_part = 'Y'
```
