

Development - Cameras for Manitou Testing

12/29/2023 4:14 pm EST

The Confirmed date indicates that the camera was confirmed working on the presented date.

Cameras marked with * are verified working and available within the new building.

Instructions: Use the provided values to set up devices within your Manitou test systems. In the Options value, you will often see <CAM>. This is a variable that should be replaced with the appropriate value from the Cameras list.

The Type, Address, and Options map directly to the values within the Manitou Web Client.

Customer cameras for Dev can be found here: [Customer Cameras](#)
