

WeSuite DocuSign Windows Security Prompt

07/03/2024 8:57 am EDT

Steps to fix-

In IIS, right-click DocuSign site and select Explore.

Right-click on the Views folder and select the Security tab

Verify USERS group is in list. If not navigate to directory inetpub>wwwroot>Right click on DocuSignSPA folder and select security tab, add USERS group, and give the following permissions

- Read & Execute
- List folder contents
- Read
