

Data Migration AlarmBiller to Managely

01/04/2024 5:32 pm EST

1. Create a Dealer in the host portal.
2. Delete the new dealer database, and restore database provided.
3. Run the aChargesGroupMigration.sql script on the newly restored database.
4. After the database is restored and the script has been run, a schema update is required.

Run these Scripts located in App_Data:

\SedonaOne\App_Data\ABDealerScripts

- rEntity.sql
- rGLAccount.sql
- 10582-adding-bill-tos-to-customers.sql

\SedonaOne\App_Data\ABDealerScripts/5.0

- aCustomer_ConvertDefaultBillTos.sql
- aInvoice_AgingDateSeed.sql
