

Sedona-X Mobile Initial Setup for SedonaCloud

12/28/2023 3:53 pm EST

Prerequisites

SedonaCloud on-premise environment or cloud-hosted environment deployed version must be 1.24.2 or higher. Also, for current FSU installation, Technicians must be migrated via previous steps.

Beta Signup (If Required)

1. Please provide all (Apple ID or Google Play) emails for any beta users in a spreadsheet sent to email SBeta@Boldgroup.com
2. Contact Implementations to confirm the email received
3. As soon as your Sedona-X beta is confirmed, you will receive an email from Apple or Google with further instructions for installing the app on your device.

Install the latest Sedona-X application on your device

1. Install or Update the latest version of Sedona-X Mobile from the Google Play or Apple App Store. Version 1.3 or higher is required
2. When Sedona-X Mobile first loads, you will see an initial screen asking to choose a portal. For this purpose, you will select "Login with SedonaOffice."
3. After selecting the "SedonaOffice" Portal, you will now enter your SedonaCloud URL. ex: <https://sedonacloudtest.com>
4. At this point, you will see the Sedona-X Mobile login screen requiring your UserName and Password that was defined in your SedonaCloud User Migration. Enter the login information and press the "Login" button.
