

Manitou Web Client: Status Bar Error

12/27/2023 12:02 pm EST

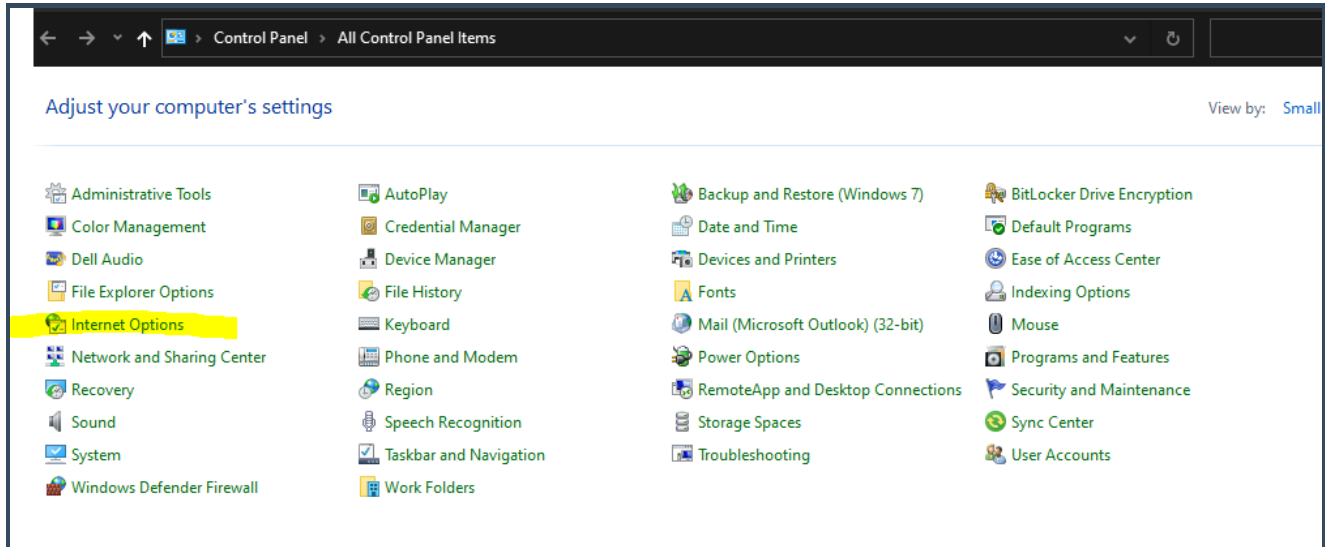

Description of Issue:

Failed to update the status bar via script. Change browser settings to allow status bar updates via script.

Fixes:

1. Open the Control Panel.

2. Go to Internet Options > Security Tab > Custom Level

□

3. Scroll down to Scripting and enable Allow Status Bar Updates via Script.
