

SQL Script - Finding Disconnection Date

01/05/2024 6:04 pm EST

This script is used for finding an account's disconnection date within Manitou.

```
SELECT transmitter_id, site_name, discontinued_date, last_event_date
FROM ABMtransmitter

WHERE (last_event_date <= "last_event_date")

IF NO DISCONTINUED TRANSMITTERS TO BE INCLUDED
AND current_status <> "disc"

IF ONLY DISCONTINUED TRANSMITTERS TO BE INCLUDED
AND current_status = "disc"

IF DEALER ENTERED
AND dealer IN (dealer_list)

IF SUBSCRIBER ENTERED
AND subscriber IN (subscriber_list)

IF ORGANIZATION ENTERED
AND organization IN (organization_list)

IF SITE ENTERED
AND site IN (site_list)

IF TRANSMITTER ENTERED
AND transmitter_id IN (transmitter_list)
```
