Database Error Codes

```
1  enum enDbError
2  {
3      DBERR_NO_ERROR                = 0,
4      DBERR_INSERT_FAIL            = -100,
5      DBERR_UPDATE_FAIL            = -101,
6      DBERR_FETCH_FAIL             = -102,
7      DBERR_RECONNECT              = -104,      // Indicates that DB layer had to reconnect to database - retry DB request
8      DBERR_TABLE_DOES_NOT_EXIST   = 208,      // Reserve -103, set to 208 which is sybase specific for now
9  };
```
