

Manitou Core - SQL Query - Find Customers with Specific Event Code Programming

01/02/2024 6:16 pm EST

Use this query to find Customers that have a specific event code in their customer Transmitter programming translations.

```
-- Use this query to find customers with a specific event code in their programming.
```

```
USE MANITOU
```

```
select
```

```
c.CONTID
```

```
, co.FULLNAME
```

```
, p.DES
```

```
, p.ZONE
```

```
, p.STCODE
```

```
, p.OZONE
```

```
from
```

```
CUSTOMER c
```

```
join CONTACT co on co.SERIALNO=c.SERIALNO and co.CONTTYPE=1
```

```
join STXPRG p on p.SERIALNO=c.SERIALNO
```

```
where
```

```
p. STCODE = 'UT' --Change the code between the single quotes to the event code you seek
```
