- All three files below must be present in order to run the Create Key registration program
 - [CreateRegKey.exe](#)
 - [CreateRegKey.org](#)
 - [SIMSRegistry.dll](#)
- To generate a registration key for any of the SIMS products:
 - Double click on CreateRegKey.exe and once the Create Registration key program launches
 - Choose the product from the dropdown list
 - Enter the customer Serial Number (4 digit number)
 - Click on Create Key and the registration key will be generated
 - **For VaporPaper III, once the option is chosen from the dropdown, the VaporPaper Options will no longer be greyed out and the number of ports will need to be entered before clicking on Create Key**
- To enter the Registration Key on the computer:
 - Go to Start>Regedit (right click and Run as Administrator)>HKEY_LOCALMACHINE>Software>Wow6432Node>SIMS>SIMS Product>Setup
 - Double click on Registration ID>enter the generated Registration ID
