

Scheduled Reports missing from SIMS III Formwriter

12/28/2023 12:24 pm EST

Description of Issue:

Reports are missing from SIMS III Formwriter.

Fixes:

1. Close SIMS III Formwriter by navigating to File>Exit, then click Yes when the "Are you sure you want to Exit" box comes up.
2. Open File Explorer and navigate to C:\Program Files (x86)\SIMS\SIMS III Formwriter\Auto.
3. Sort the files by date so that the newest date is at the top.
4. Find the newest schedulereports.XXX file with the largest file size.
5. Copy that file and paste it on the desktop.
6. Rename the extension for that file from .XXX to .bin.
7. Cut that file from the desktop and paste it in the root of the SIMS III Formwriter folder (C:\Program Files (x86)\SIMS\SIMS III Formwriter).
8. Restart SIMS III Formwriter and click Yes when the "Do you want to generate the past due reports" box pops up.
