

Update Manitou Client Shortcuts

12/27/2023 1:38 pm EST

-Go into Manitou Client Machine

-Under Manitou Workstation, right-click and select properties:

-Go to shortcut and under "Target:" you are going to add the path highlighted:

Target: "C:\Program Files (x86)\Bold Technologies\Manitou\Manitou.exe" -SMC-MAN-host -BCO-MAN-host -BLA-MAN-host -BAW-MAN-host

****NOTE**** Be sure to remove your shortcut as well in the taskbar, open the edited Manitou Workstation App, and reattach. The old one will keep the old shortcut target path is why.

Change in both the Manitou Workstation and the Supervisor Workstation desktop shortcuts.
