

AlarmBiller - 4.19.10 - 5/17/2021

01/04/2024 6:10 pm EST

Features:

None

Enhancements:

None

Bugs:

1. Forte payments not showing as settled and autopayments not making it to Forte (18946)

Issue – Payments are not showing as settled in AlarmBiller and Autopayments are not making it to Forte

Solution – We have corrected an issue where our Forte Automatic Jobs were failing due to logic we added to disable jobs that could cause duplicate transactions in some scenarios. We have narrowed the scope of the original correction to be specifically targeted to duplicate transactions.
