

SedonaOffice - 6.1.0.17

01/05/2024 4:23 pm EST

Special Upgrade / Install Instructions

If upgrading to SedonaOffice 6.0 and higher, the following related updates are also required:

FSU Updates - iOS devices must be on iOS version 11 or newer. Please also check the app store for any updates to your FSU app

SedonaWeb - If your company uses SedonaWeb, IT will update your SedonaWeb version at the same time as your SedonaOffice version. This is to ensure the highest level of PCI compliance throughout all applications

SedonaCloud/SedonaAPI 2.0 Setup - If your company uses the SedonaAPI, IT will update your SedonaAPI version at the same time as your SedonaOffice version. This is to ensure compatibility with the SalesAutomation module.

If you are not a SedonaCloud customer, please review the requirements for the new API before requesting the update. For a copy of pre-install requirements please contact: sedonaoffice.support@boldgroup.com

Performing Update - Once you have reviewed all of the above information, and followed all preparation steps, contact SedonaOffice support. We will note on your account that you have received the Release Notes and are ready for update. SedonaOffice IT will then contact you to schedule your update.

Supported Environments

Minimum System Requirements:

- Server is on Microsoft .Net 4.6.1

Features and Enhancements

(N) SedonaOffice Installer (4071)

Product: SedonaOffice

Description: New SedonaOffice builds have always been created manually from a build server. With this feature, we now have the ability to generate new builds of SedonaOffice out of DevOps, which allows us to create builds outside of a build server
