

How do you see a Customer's URL in Octopus?

02/12/2024 11:39 am EST

Description of Issue:

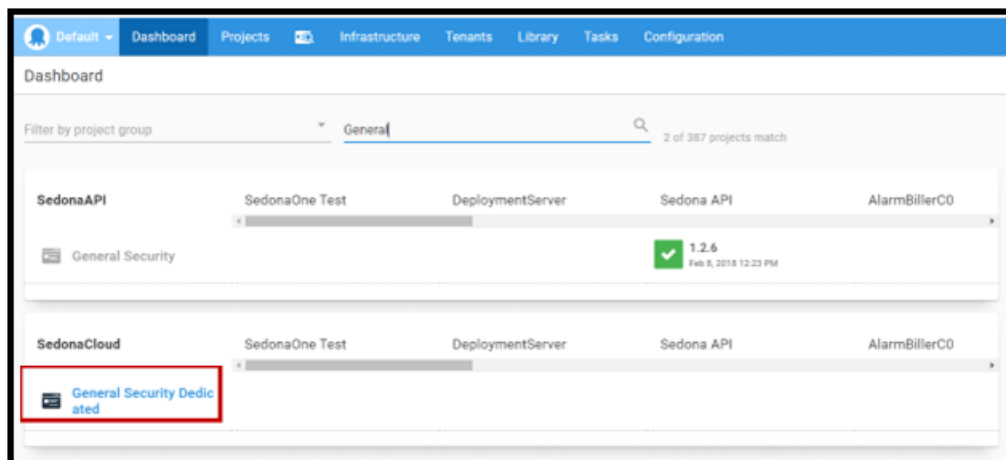

How do you see a customer's URL in Octopus?

Resolution:

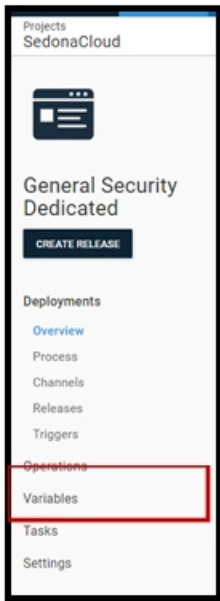

When logging into Octopus.

From the Dashboard search for the Project using the customer's name.

Click the Link for the customer.

On the left menu bar click Variables.

In the variables menu, scroll to the bottom and you will see the URL.

Project Variables
