

Scripts to Find Line Feeds or Carriage Returns in Purchase Order Parts

04/29/2024 10:03 am EDT

Description of Issue:

If Part codes, Descriptions or other text fields are populated by using Copy/Paste, there could be hidden characters in the field that can cause issues in using parts in orders like POs.

Resolution:

The scripts below can be used to find the records with a problem.

```
---Backup table ---
```

```
Select * into AP_Purchase_Order_Parts_Backup_123 from AP_Purchase_Order_Parts
```

```
---Remove Line feeds and Carriage Returns from table ---
```

```
---Run the Select portion of the statement to see if this is the issue ---
```

```
---If there are results returned run the update script ---
```

```
UPDATE AP_Purchase_Order_Parts
```

```
set
```

```
Memo = REPLACE(Memo, char(13), ''),
```

```
Vendor_Part_Code = REPLACE(Vendor_Part_Code, char(13), '') ,
```

```
Vendor_Part_Description = REPLACE(Vendor_Part_Description, char(13), '')
```

```
--Select * from AP_Purchase_Order_Parts--24
```

```
where Memo like '%'+char(13)+'%' or Vendor_Part_Code like '%'+char(13)+'%' or
```

```
Vendor_Part_Description like '%'+char(13)+'%'
```

```
UPDATE AP_Purchase_Order_Parts
```

```
set
```

```
Memo = REPLACE(Memo, char(10), ''),
```

```
Vendor_Part_Code = REPLACE(Vendor_Part_Code, char(10), '') ,
```

```
Vendor_Part_Description = REPLACE(Vendor_Part_Description, char(10), '')
```

```
--Select * from AP_Purchase_Order_Parts
```

```
Where Memo like '%'+char(10)+'%' or Vendor_Part_Code like '%'+char(10)+'%' or Vendor_Part_Description like '%'+char(10)+'%'
```
