

Credit Card Readers Compatible with Sedona-X Mobile App

02/08/2024 5:51 pm EST

This information below will provide the details on what device is supported by Sedona-X mobile app for taking payments.

Sedona-X mobile app provides the capability of reading a credit card when used with proper equipment.

The device that BoldGroup tested and recommends is Magtek eDynamo, part code: 21079802.

eDynamo is compatible with Android, iOS, MacOS and Windows.

Magtek eDynamo is a Bluetooth credit card reader. It needs to be paired with the phone via Bluetooth and needs to be active before opening the Sedona-X mobile app.

The product can be purchased from different places; however, we will name the Manufacturer and Forte (our official payment processor).

Forte, the payment processor has a dedicated URL link for the product, also gives the ability for the user to purchase it directly from them:

<https://equipment.forte.net/product-p/21079802.htm>

The manufacturer Magtek, direct URL link provides more specific details about the product, also the ability to purchase it:
