

Scripts to remove special characters from IN_Part records

06/03/2025 12:42 pm EDT

Description of Issue:

If Part codes, Descriptions, or other text fields contain special characters in the field, it can cause problems in the application.

These are not allowed, and the application will prevent the record from being saved.

Resolution:

The scripts below can be used to remove these special characters from the fields in IN_Part.

--- Backup Table before making changes. ---

```
select * INTO IN_PART_backup12345 from IN_Part
```

--- Remove invalid

```
UPDATE IN_Part
SET
Part_Code = REPLACE(Part_Code, '_', ' '),
Description = REPLACE(description, '_', ' '),
Detail = REPLACE(Detail, '_', ' '),
Purchase_Description = REPLACE(Purchase_Description, '_', ' '),
Service_Description = REPLACE(Service_Description, '_', ' '),
Sales_Description = REPLACE(Sales_Description, '_', ' ')
where [description] like '%_%' OR detail like '%_%'
```

```
UPDATE IN_Part
SET
Description = REPLACE(description, '|', '/'),
Detail = REPLACE(Detail, '|', '/'),
Purchase_Description = REPLACE(Purchase_Description, '|', '/'),
Service_Description = REPLACE(Service_Description, '|', '/'),
Sales_Description = REPLACE(Sales_Description, '|', '/')
where description like '%|%' OR detail like '%|%'
```

```
UPDATE IN_Part
SET
Description = REPLACE(description, '@', ''),
Detail = REPLACE(Detail, '@', ''),
```

```
Purchase_Description = REPLACE(Purchase_Description, '@', ''),
Service_Description = REPLACE(Service_Description, '@', ''),
Sales_Description = REPLACE(Sales_Description, '@', '')
where [description] like '%@%' OR detail like '%@%'
```

```
UPDATE IN_Receipt_Parts
```

```
SET
```

```
Description = REPLACE(description, '@', ''),
vendor_part_code = REPLACE(vendor_part_code, '@', ''),
vendor_part_description = REPLACE(vendor_part_description, '@', '')
where description like '%@%' or vendor_part_code like '%@%' or vendor_part_description like '%@%'
```

```
UPDATE IN_Receipt_Parts
```

```
SET
```

```
Description = REPLACE(description, '|', ''),
vendor_part_code = REPLACE(vendor_part_code, '|', ''),
vendor_part_description = REPLACE(vendor_part_description, '|', '')
where description like '%|%' or vendor_part_code like '%|%' or vendor_part_description like '%|%'
```

```
UPDATE AP_Purchase_Order_Parts
```

```
SET
```

```
Memo = REPLACE(Memo, '@', ''),
vendor_part_code = REPLACE(vendor_part_code, '@', ''),
vendor_part_description = REPLACE(vendor_part_description, '@', '')
where memo like '%@%' or vendor_part_code like '%@%' or vendor_part_description like '%@%'
```

```
UPDATE AP_Purchase_Order_Parts
```

```
SET
```

```
Memo = REPLACE(Memo, '|', ''),
vendor_part_code = REPLACE(vendor_part_code, '|', ''),
vendor_part_description = REPLACE(vendor_part_description, '|', '')
where memo like '%|%' or vendor_part_code like '%|%' or vendor_part_description like '%|'
```
