

Type_PRO Column in IN_Receipt table

04/29/2024 10:56 am EDT

Description of Issue:

When looking at the IN_Receipt table, what do the different type values stand for in the Type_PRO column?

Resolution:

The field is used to reference why the receipt was made. The receipt may be tied to a purchase order, a repair order or a miscellaneous receipt not tied to a specific order.

P = Purchase Order

R = Repair Order

O = Others
