

Job Management Install Items

02/09/2024 6:17 pm EST

Description of Issue:

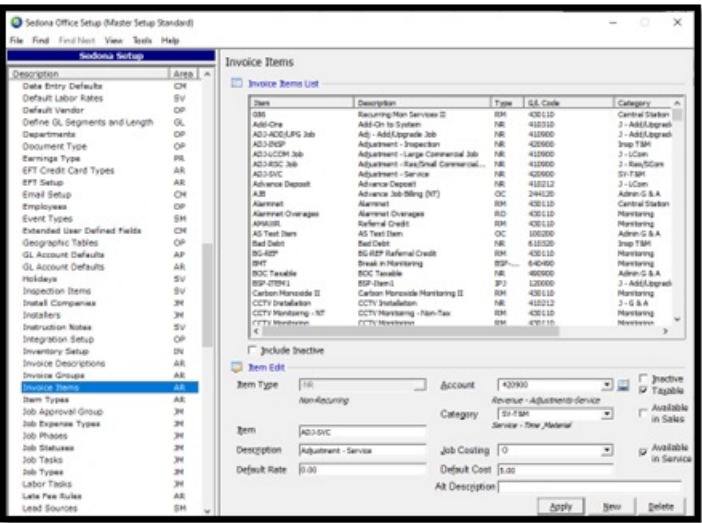

When creating a Job and adding details in the Install section of the Job, what table holds the Install Item codes available in the dropdown list?

Resolution:

These items are held in the AR_Item item table.

The Items are maintained in the SedonaSetup under the AR Invoice Items.

The list is a subset of the records in the table.
