

Access the Managely test environment (Managely.info) using Sedona-X App

04/26/2024 1:14 pm EDT

Download the Sedona-X app from the Play Store or App Store (depending on the OS/device used) and follow the steps below:

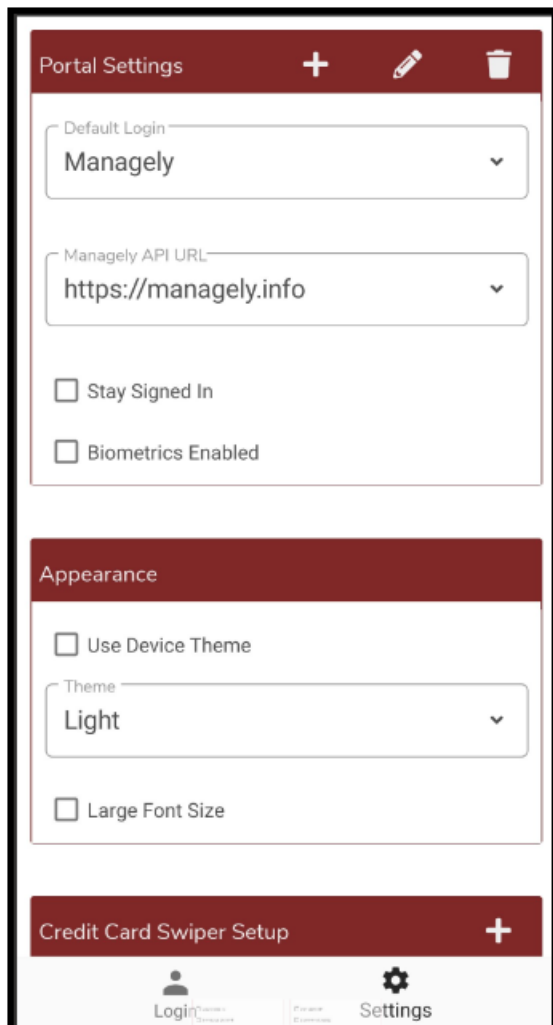

Settings needed for the test environment for Managely using Sedona-X mobile app.

From the Home screen of the app (the main screen that opens when the app is accessed for the first time) click the Settings button on the bottom right-hand-side.

Select Managely as Default Login and for Managely API URL use <https://managely.info>

The URL will not exist the first time accessing the test environment, so it needs to be added.

Use the + (plus) button to add it manually.

Once the steps above have been completed click the Login button and login using the Managely.info credentials.

Note: The API URL in the Settings will need to be changed back to <https://managelyapp.com> to access dealer's/customer's accounts.

The screenshot shows the 'Portal Settings' interface. At the top is a dark red header with the title 'Portal Settings' and three icons: a plus sign, a pencil, and a trash can. Below the header, there are three main sections. The first section contains two dropdown menus: 'Default Login' set to 'Managely' and 'Managely API URL' set to 'https://managelyapp.com'. Below these are two unchecked checkboxes: 'Stay Signed In' and 'Biometrics Enabled'. The second section, titled 'Appearance' in a dark red header, contains one unchecked checkbox 'Use Device Theme', a 'Theme' dropdown menu set to 'Light', and another unchecked checkbox 'Large Font Size'. The third section is titled 'Credit Card Swiper Setup' in a dark red header with a plus icon. At the bottom is a light gray navigation bar with three items: 'Login' with a person icon, 'Profile' with a person icon and the text 'Account Information' below it, and 'Settings' with a gear icon.
