

Managely – What credit card reader is compatible with Sedona-X mobile app

02/12/2024 6:10 pm EST

The information below will provide the details on what device is supported by the Sedona-X mobile app for taking payments.

Sedona-X mobile app provides the capability of reading a credit card when used with proper equipment.

The device that Bold Group tested and recommends is Magtek eDynamo.

Magtek eDynamo is a Bluetooth credit card reader. It needs to be paired with the phone via Bluetooth and needs to be active before opening the Sedona-X mobile app.

The product can be purchased from different places, however we will name the Manufacturer and Forte (our official payment processor).

Forte, the payment processor has a dedicated URL link for the product, which also give the ability the user to purchase it directly from them:

<https://equipment.forte.net/product-p/21079802.htm>

The manufacturer MagTek direct URL Link provides more specific details about the product:
