- Can we test connecting to SedonaOffice and your other remote apps a different way and see if it resolves some of the issues?
- Go to Control Panel > RemoteApp and Desktop Connections:
 - ▣
- Click on Access RemoteApps and desktop:
 - ▣
- Enter <https://afs.sedonaoffice.com/RDWeb/Feed/webfeed.aspx> and click next.
- Click Next again and you will be prompted for your Cloud login. After this process completes, you should be able to find your remote applications in the Start Menu (will be in a RemoteApp/Remote Desktop folder).
