

FW: Sedonaoffice - Fleetmatics Integration Change (Deprecated)

09/19/2025 9:20 am EDT

This is what I say to the Customer and attach the attachment to the email and close the tickets. Jeff, probably be a good thing to check out the document so you understand the change that is happening when a ticket like these are made. 14 days after Fleetmatics has done the change they will then stop the transmissions from happening for these customers using the SageQuest URLs which is saved in the databases.

Subject: Sedonaoffice - Fleetmatics Integration Change

Zack,

You Fleetmatics account will be switched over to Reveal from SageQuest on December 8th. For the Integration between sedonaoffice and Fleetmatics to continue to work you will need to follow the steps in the document, that I have attached to this email. It will only take a few minutes to complete. Please let me know if you run into any issues.
