

# TSPrint /TSScan [Not Supported in AWS]

02/15/2024 10:14 am EST

## TSPrint

Client runs a service

Uses default printer

Must select TSPrint as the printer, otherwise unpredictable and probably undesired results if it works at all

Can change default printer through TSPrint

TSScan Atalasoft driver error fix

See Security Specialists example

```
Set-ItemProperty -Path "HKCU:\Software\Microsoft\Windows NT\CurrentVersion\TWAIN" -Name "Default Source" -Value ""
```

```
@echo off
```

```
Powershell -nopprofile -executionpolicy Bypass -command "& 'C:\Scanner Registry Fix.ps1'"
```
