

How to Stop/Inactivate a SeodnaSync Event

09/16/2024 5:40 pm EDT

SedonaSync has the option to stop a Sync event manually. This may be needed if a change to the event has been made or needs to be made.

Step 1.) Click on Event Designer >Application Events > Events.

Step 2.) Click on the Event that needs to be stopped. The small red box is the Edit option

□

Step 3.) Once you click on Edit, the screen below will populate.

Step 4.) Uncheck the ACTIVE box and then click on Update.
