

# How to Find the Secret Key for WeSuite - Internal

05/20/2024 9:52 am EDT

## Issue:

Customer asks for Secret Key for WeSuite integration.

## Resolution:

To locate the Secret Key for WeSuite integration, go to:

Octopus Deploy.

Locate the customer in Projects or Dashboard.

□

Click on the customer.

When the customer is opened, a list will appear on the left hand side of the screen.

Locate the option Variables and click on it. It will open new options below it.

Select the option called Project.

□

When Project is selected, a list of Project Variables will appear to the right of the list.

Locate the option labeled as Config:SedonaCloudClientSecret.

□

The Secret Key is located on the same line, to the right in the column labeled as Variable.

Once the Key is located, it can be copied and sent to the customer who is asking for it.
