

# Ticket Queue Font Colors

05/24/2024 10:07 am EDT

The Font Color of a Ticket displayed in the Ticket Queue depends on the Priority of the Ticket.

## **Sedona Setup – Problem Codes**

In the Problem Code Setup table, a default Priority is assigned to that Code. The default Priority auto-fills into the Ticket.

□

Priority Codes are hard coded into the software and cannot be added, changed, or deleted.

## **Sedona Schedule Ticket Queue**

When a Ticket is initially created, the User must select a Problem Code.

□

Below are the Priority Color Codes.

**Low – Green**

**Medium – Black**

**High – Blue**

**Critical – Red**

□
