

Permission to Remove Late Fees in Managely

07/01/2024 5:47 pm EDT

Managely provides users the ability to manually remove late fees.

What are the necessary permissions to be able to remove late fees in Managely?

The necessary permission to be able to remove late fees in Managely is Administrator.

The screenshot shows the 'Edit User' interface. On the left, there are input fields for Username, First Name, Middle Initial, Last Name, Phone, Email, and Timezone. On the right, there are dropdown menus for User Role (set to Administrator), Access Level (set to Admin), and Site Theme (set to Managely). There are also radio buttons for 'User Online' and 'Inactivate', both set to 'OFF'. An 'Inactive Date' field is present with a calendar icon. A 'Description' field is at the bottom.

Note: Currently only Administrators can remove late fees in Managely.

*This user role enables everything access related in Managely.
