

Service Calendar Display Groups

09/16/2024 5:54 pm EDT

Customers will sometimes want to group their technicians in the Service module. The Service module has a feature to group with instructions below.

1. Click on icon 1, this will open the Display Group.
2. You can create a Display Group in this module, by clicking on the Code and entering whatever Group name you want and any Description.
3. Once the Group name is selected, you can highlight the Display group and add or remove any technician-Grouping.

The screenshot displays the SedonaSchedule 6.2.0.16 - Sedona Security interface. On the left, a sidebar contains navigation options: View, Service Options, VerizonConnect, and Jobs Options. Below these are buttons for Show/Hide Calendar Bar and Navigation. The main area is divided into two panes. The left pane, titled 'Display Group', shows a list of groups with columns for In Group, Sequence, Code, Name, Service Co, Install Co, Expense, Text, and Routes. The right pane, titled 'Miguel test', shows a calendar view for March 2024 with columns for Ashlee Simmons and Miguel Gutierrez. A red box highlights the 'Display Group' window, and a red arrow points to the 'Show Unassigned' button in the top right corner of the interface.
