

System Counts by Monitoring Company

09/12/2024 5:21 pm EDT

You can use the script below to see how many systems are being monitored by each company

```
select b.alarm_company_code as "Alarm Company",  
  
b.inactive as "Alarm Company Code Inactive Y/N", --b.alarm_company_id,  
  
count(a.alarm_company_id) as "Number of Systems with Alarm Company Code", b.description  
  
from ar_customer_system a, cs_alarm_company b  
  
where a.alarm_company_id=b.alarm_company_id and a.Customer_Id > 1  
  
group by b.alarm_company_code, b.inactive, a.alarm_company_id, b.alarm_company_id, b.description  
  
order by b.alarm_company_code
```
