

Check if Sandbox Data is Current

09/23/2024 2:33 pm EDT

Issue:

A customer has a problem that needs testing in their Sandbox company.

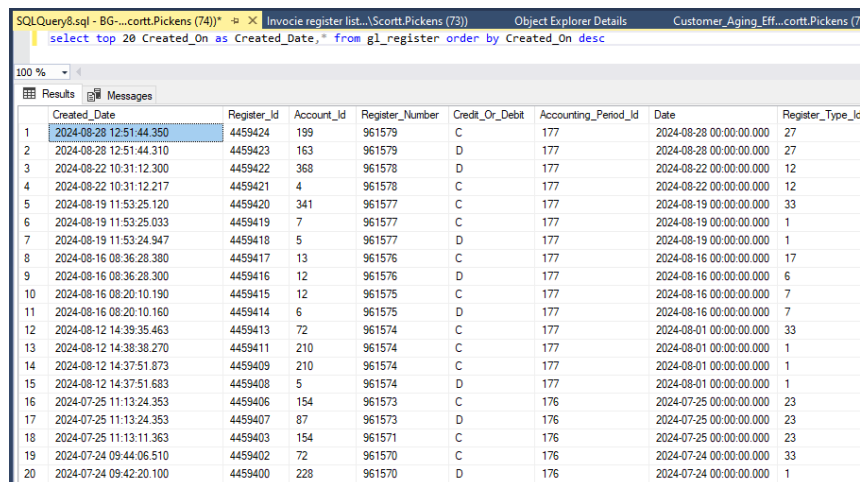

How can we tell if the Sandbox company has current data?

Resolution:

You can look at the transactions in the GL_Register table for recent transactions.

You can use the script below to see the most recent records created.

`select top 20 Created_On as Created_Date,* from GL_Register order by Created_On desc`

The screenshot shows a SQL Server Enterprise Manager window with a query executed in the SQL Query Editor. The query is: `select top 20 Created_On as Created_Date,* from GL_Register order by Created_On desc`. The results are displayed in a table with 8 columns: Created_Date, Register_Id, Account_Id, Register_Number, Credit_Or_Debit, Accounting_Period_Id, Date, and Register_Type_Id. The table contains 20 rows of data, sorted by Created_On in descending order. The first row has a Created_Date of 2024-08-28 12:51:44.350. The last row has a Created_Date of 2024-07-24 09:42:20.100.

	Created_Date	Register_Id	Account_Id	Register_Number	Credit_Or_Debit	Accounting_Period_Id	Date	Register_Type_Id
1	2024-08-28 12:51:44.350	4459424	199	961579	C	177	2024-08-28 00:00:00.000	27
