

How to Find License Details for Manitou Server

11/05/2024 5:37 pm EST

This document will go over how to find the license details for the Manitou Server using the Bold License Client for versions 1.6.1 to 2.1.0.

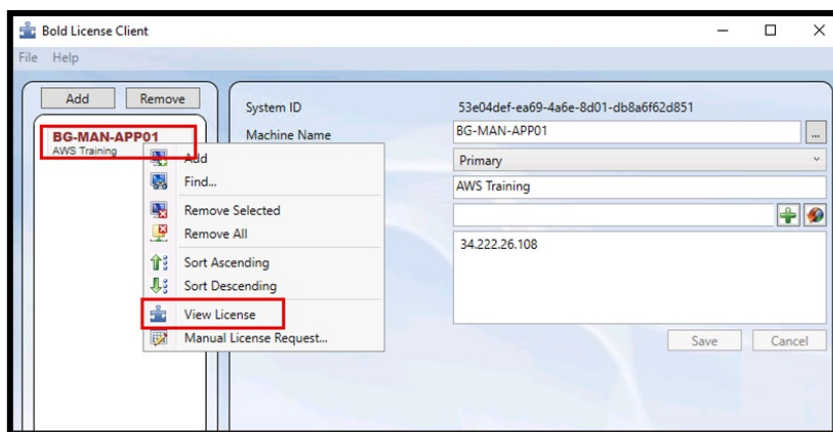

Overview

The steps will need to be preformed on the Manitou server that is running the Bold License Client, and the user has the necessary permissions to do the steps.

1. Double click on Bold License Client

2. When window opens – Right click on the server – Select View License

3. The Manitou tab will show the license values for each Option available with the Active/Inactive showing either the Max or both values available

View License
