

Correct Error Message Cannot Find fnInvoice_Credit_Amount (Internal)

11/22/2024 10:28 am EST

Issue:

When working in an AP Vendor we are receiving errors that the application cannot find function or aggregate dbo.fnInvoice_Credit_Amount.

Resolution:

The function is used by the application and cannot be found as expected. There may have been a problem when the database was updated, and the function was not created correctly, or the function was deleted from the database by mistake.

The script below will recreate the function if it no longer exists.

```
/****** Object: UserDefinedFunction [dbo].[fnInvoice_Credit_Amount] Script Date: 11/20/2024 3:51:34 PM *****/
```

```
SET ANSI_NULLS ON
```

```
GO
```

```
SET QUOTED_IDENTIFIER ON
```

```
GO
```

```
CREATE FUNCTION [dbo].[fnInvoice_Credit_Amount]
```

```
(@APInvoice_Id int)
```

```
RETURNS money
```

```
AS
```

```
BEGIN
```

```
    DECLARE @Amount money
```

```
    SELECT @Amount = SUM(cd.Amount)
```

```
    FROM AP_Credit_Detail cd
```

```
    WHERE cd.APInvoice_Id = @apinvoice_id
```

```
    RETURN @Amount
```

```
END
```

```
GO
```
