

Count Credit By Invoice Type (Internal)

11/25/2024 7:58 am EST

The Script below counts all the credit lines used for each invoice type. J = Job, S = Service, C = Cycle, and O = Other

```
select b.Type_JSCO as TYPE_JSCO,  
  
count(b.type_jsco) as [Number of Credits by Type]  
  
from ar_customer a, ar_credit b  
  
where a.customer_id=b.customer_id  
  
and a.customer_id<>1  
  
group by b.Type_JSCO
```
