

Open Documents in PDF format (Internal)

12/03/2024 3:46 pm EST

These steps will allow a user to set PDF Chrome as the default application for opening PDF document(s).

1. Right click on any PDF document and click on properties
2. Click on Change button
3. Choose Google Chrome, this program has a built in PDF reader, then click on OK

Documents will now open in Google/PDF format. You can download it as a PDF afterwards.
