

Cannot find either column 'dbo' or the user-defined function or aggregate 'dbo.fnInvoice_Credit_Amount', or the name is ambiguous (Internal)

12/04/2024 8:17 am EST

If a user reports that they are receiving the above error, look for the `dbo.fnInvoice_Credit_Amount` function in the below location.

If the function is not present, run the below script to recreate the function.

```
/***** Object: UserDefinedFunction [dbo].[fnInvoice_Credit_Amount] Script Date: 11/20/2024 3:51:34 PM *****/
```

```
SET ANSI_NULLS ON
```

```
GO
```

```
SET QUOTED_IDENTIFIER ON
```

GO

CREATE FUNCTION [dbo].[fnInvoice_Credit_Amount]

(@APInvoice_Id int)

RETURNS money

AS

BEGIN

DECLARE @Amount money

SELECT @Amount = SUM(cd.Amount)

FROM AP_Credit_Detail cd

WHERE cd.APInvoice_Id = @apinvoice_id

RETURN @Amount

END

GO
