

How to create SQL server user (Internal)

02/03/2025 6:46 pm EST

SQL server users may need to be added. To add another login user, someone with Admin rights to the SQL server must be the user to create a new login.

- Open Security DB and go to Logins then right click
- Click on New login
- New login properties page will pop up

The following sections must be reviewed and updated to create the new login.

- General
- Server roles
- User Mapping
- Securables
- Status

Login - New
