

Sedona Office Sandbox Access

07/18/2025 11:17 am EDT

SedonaOffice has login permission restrictions. If a company has a Sandbox in SedonaOffice, the user will need login credentials for the Sandbox environment and their Production platform.

A user will need login credentials for any other company created under the primary company platform.

A user must be added to the Sedona office setup tables below for any Sandbox or Company for which they need access.

Sedona Setup
