

How To Access Sedona Office Client Tools Check For Update Utility

07/16/2025 6:04 pm EDT

SedonaOffice has a utility in client workstations that has many features to use for technical purposes. The following steps will show how to access and use the utility.

- Go to Windows > SedonaOffice Client Tools > and open the SedonaOffice Client Tools utility.
- One example is the Check for Updates in the picture below. Click Open, and the utility will verify if your SedonaOffice has updates available.
