

# AP Bills Screen Issues

02/23/2026 11:40 am EST

AP Bills screen various issues with tabbing, entering lines, and calculation.

Caused by updating SedonaSync. Whenever Sync is updated for cloud customers certain files need to be re-registered to avoid the issue.

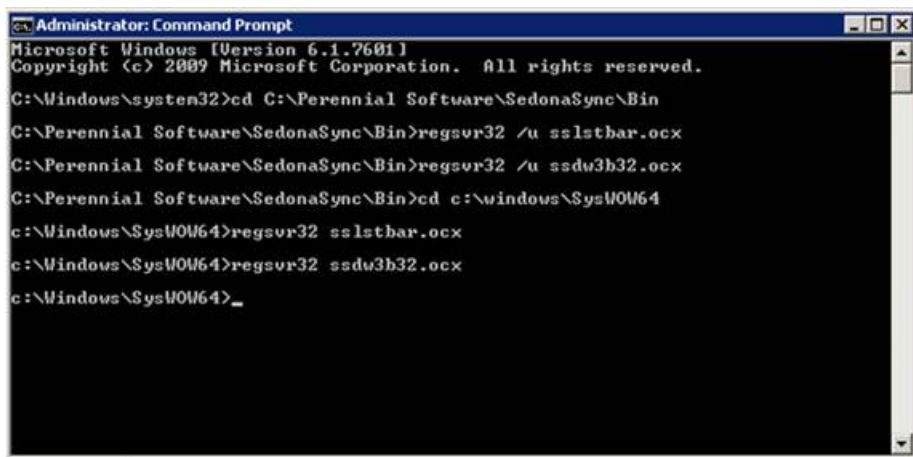

Two files you are unregistering and re-registering are:

- sslstbar.ocx
- ssdw3b32.ocx

You can find these files in the c:\perennial software\sync\bin

The on a command box as administrator then follow the command box below.

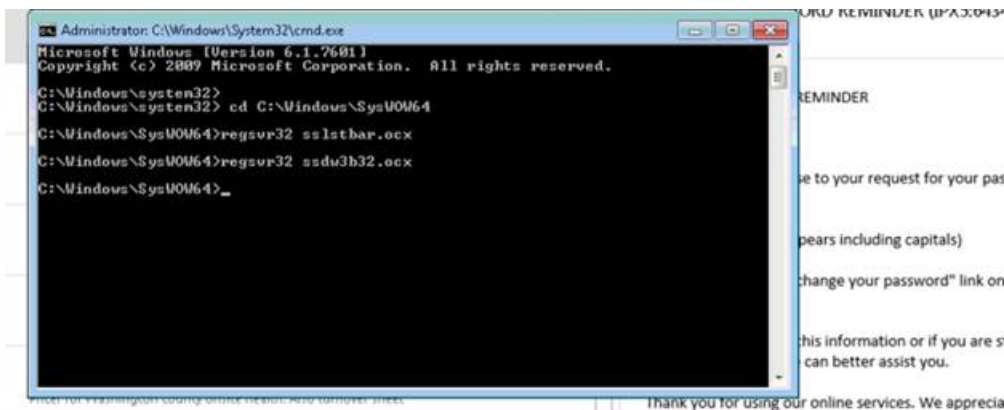

This is occurring to Non-cloud customers as well. So, the Follow-up to that is if they have SedonaSync on the same server as SedonaOffice this issue may occur.

```
Administrator: Command Prompt
Microsoft Windows [Version 6.1.7601]

C:\Windows\system32>cd C:\Perennial Software\SedonaSync\Bin
C:\Perennial Software\SedonaSync\Bin>regsvr32 /u sslstbar.ocx
C:\Perennial Software\SedonaSync\Bin>regsvr32 /u ssdw3b32.ocx
C:\Perennial Software\SedonaSync\Bin>cd c:\windows\SysWOW64
c:\Windows\SysWOW64>regsvr32 sslstbar.ocx
c:\Windows\SysWOW64>regsvr32 ssdw3b32.ocx
c:\Windows\SysWOW64>_
```

And then after this re-run the sheridian controls

```
