## Data Conversion

Below are listed are the data conversion items for standard data conversions:

Anything not listed would be considered outside the standard conversion scope.

Data conversion includes:

- Names
- Addresses
- Contacts
- Contact Points (telephone, e-mail, pager, etc.)
- Contact List
- Passwords
- Call Lists
- Customer Comments (e.g. Notes)
- Transmitters (e.g. Dialer, GSM, Radio, etc.)
- Transmitter Test Intervals
- Programming
- Default Programming (Transmitter Types - only if readily available)

- Zones
- Open/Close Schedules (only standard)
- User Defined fields (straight conversion only)
- Group/Class Codes
- Dealers (Installers)
- Authorities
- Action Patterns based on your current Call Lists
- Agencies (when applicable)

\*Account history is not included in conversion.
