Run Time Error '35602' when trying to run Inventory Stock Status Report [00160320]

/*

Created by: Emeka D

Purpose: This query deletes duplicate records from the table IN_Material_Handler_Warehouses — keeping only the most recent (highest Material_Handler_Warehouse_Id) record for each (Employee_Id, Warehouse_Id) combination.

Logic:

- Identify duplicates grouped by Employee_Id and Warehouse_Id.
- Keep the record with the MAX(Material_Handler_Warehouse_Id).
- Delete all other duplicates.

*/

DELETE ud

```
FROM IN_Material_Handler_Warehouses AS ud

INNER JOIN (

SELECT

    Employee_Id,

    Warehouse_Id,

    MAX(Material_Handler_Warehouse_Id) AS Keeper

FROM IN_Material_Handler_Warehouses

GROUP BY Employee_Id, Warehouse_Id

HAVING COUNT(*) > 1

) AS ref

ON ref.Employee_Id = ud.Employee_Id

AND ref.Warehouse_Id = ud.Warehouse_Id

AND ref.Keeper <> ud.Material_Handler_Warehouse_Id;

PRINT 'Duplicate Material Handler Warehouse records successfully removed.';
```
