

Sedona-X Mobile Release Notes

April 2025

Version 2.0.1.x

Welcome

Welcome to the beta test of the new Sedona-X mobile app. Thank you for your interest in helping us improve the app through early access testing.

This document describes how to get our app for testing on both Apple iOS devices and Android devices and what to do if you encounter an issue.

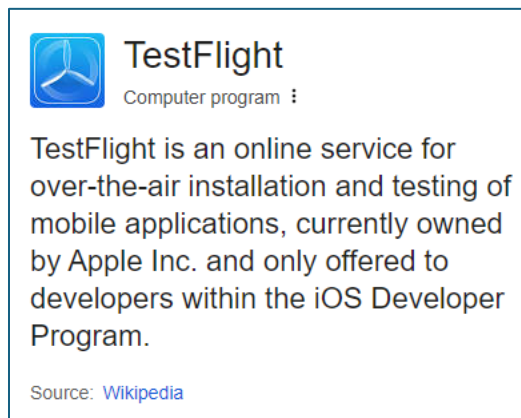

The Sedona-X mobile app version for beta testing is version 2.0.x. and higher.

Please follow the instructions below to sign up and start using the beta version.

IMPORTANT: These links are intended only for approved customers. Please do not share them publicly.

Apple iOS Devices

To get the app for testing, first download an app called TestFlight. Be sure your devices meet the minimum iOS version to be able to install TestFlight.

1. Install the TestFlight app from the App Store, if you do not have it installed.
2. Open this link on your iPhone: [Join iOS Beta](#)
3. Tap “Accept” to join the beta.
4. Download and install the beta version of the app via TestFlight.

Android Devices

1. On your device, open this link to join the beta program: [Join Android Beta](#)
2. After joining, visit the app on the Play Store: [Download Beta Version](#)
3. Tap “Install” or “Update” to get the latest beta version.

Note: There is a known issue that the Sedona-X mobile app will not install or run on a few Android devices, such as a Google Pixel 4A.

How to Verify the Beta App Version

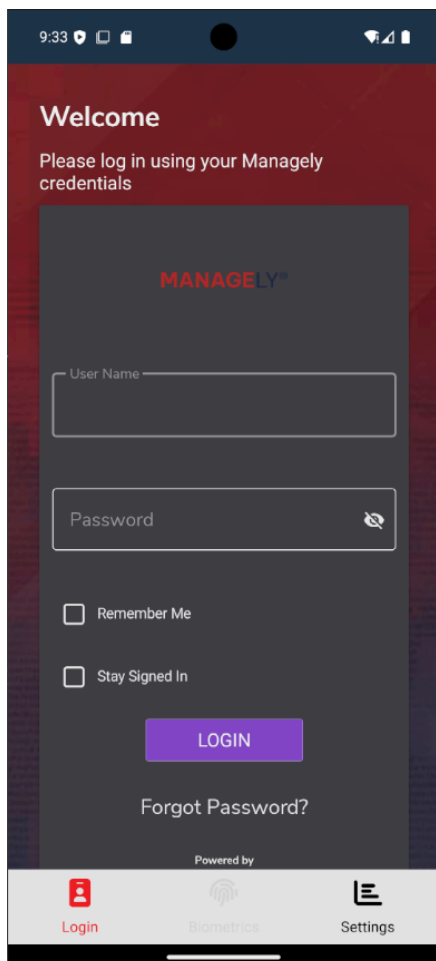

The beta app version is 2.0.1.x, This is shown in the play store and in the app. To see the version in the app, press the settings button.

How To Log Into the App

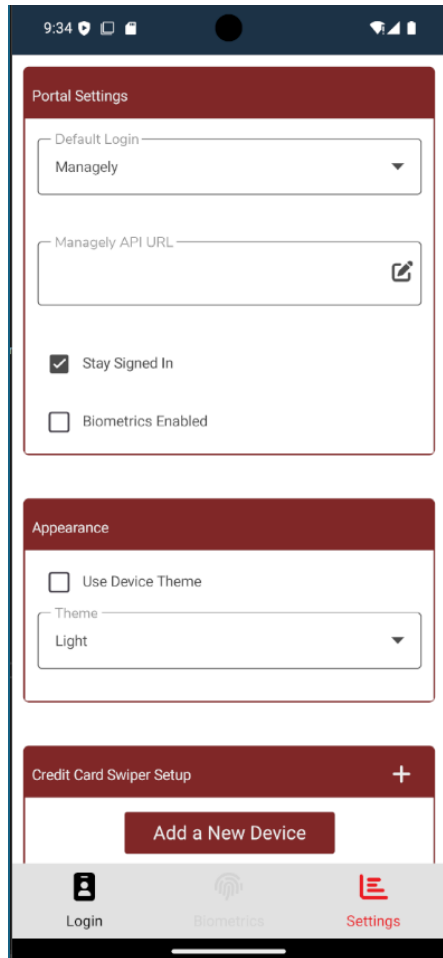

To log in, open the app.

Press the setting button.

Enter your username and password.

If You Encounter Issues

If you encounter any issues or have feedback, please contact our support team. Thank you again for being part of our beta testing program!

Software Compatibility

Operating System — iOS devices should be on iOS version 17 (or later) and Android devices should be using Android 15 (or later) for full compatibility, although earlier versions may be able to support the application. Please check the app store for any updates to your Sedona-X Mobile app.

SedonaOffice —version 6.2.0.19 (or later)

SedonaWeb/SedonaAPI 2.0 — version 1.50.0 (or later)

Managely — latest version

Supported Devices

The Sedona-X Mobile app supports the MagTek eDynamo Card Reader. Follow these steps to connect and start taking payments.

- Fully charge your eDynamo before first use.
- Handle the reader carefully — dropping or tampering can permanently disable it.

iOS (iPhone/iPad) Setup Instructions

1. Charge the eDynamo using the included USB cable until the green light stays solid.
2. Enable Bluetooth on your iPhone/iPad (Settings → Bluetooth → Toggle ON).
3. Put the eDynamo into Pairing Mode:
 - Press and hold the eDynamo's power button for about 2 seconds until the blue Bluetooth LED starts flashing.
4. Open Sedona-X Mobile:
 - Tap Settings from the main menu.
 - Scroll down to Credit Card Swiper Setup.
 - Tap Add a New Device.
5. Pair with your MagTek device:
 - In the list, select your device (named eDynamo-xxxxxxx matching the serial number on your reader).
 - If prompted for a pairing code, enter 000000 (six zeros).
6. After pairing, you will be returned to the Settings page where you will see Paired & Connected.
7. You are now ready to use the swiper when adding a card during the Take Payment process inside the app.

To Disconnect or Unpair:

- Open iOS Settings → Bluetooth.
- Tap the “i” next to your device name and select Forget This Device.

Android Setup Instructions

1. Charge the eDynamo fully using the USB cable.
2. Enable Bluetooth and Location Services on your Android device.
3. Put the eDynamo into Pairing Mode:
 - Press and hold the power button for about 2 seconds until the blue Bluetooth LED flashes.
4. Open Sedona-X Mobile:
 - Tap Settings from the main menu.
 - Scroll down to Credit Card Swiper Setup.
 - Tap Add a New Device.
5. Pair with your MagTek device:
 - In the list, select your device (eDynamo-xxxxxxx matching your serial number).
 - Enter 000000 (six zeros) if prompted for a pairing code.
6. After pairing, you will return to the Settings page where you will see Paired & Connected.
7. You are now ready to use the swiper when adding a card during the Take Payment process.

To Disconnect or Unpair:

- Open Android Settings → Bluetooth.
- Find your eDynamo, tap the gear icon, and choose Unpair.

To End Beta Testing

To end beta testing or to switch back to the currently available app, follow these steps.

Apple iOS Device

1. Open the TestFlight app.
2. Tap on our app name.
3. Scroll down and tap “Stop Testing”.
4. Reinstall the public version of the app from the App Store.

Android Device

1. On your device, go to the beta opt-out page: [Leave Android Beta](#)
2. Tap “Leave the program.”
3. Uninstall the beta app and reinstall the public version from the Play Store.
