

SedonaWeb 1.0 Release Notes

February 2025

Version 2.7.83.1 **INTERNAL COPY**

NOTE: This is a preliminary version of the release notes. The listed features are targeted for this release; however, not all features are guaranteed to be in the final release. The final release notes will have the finalized list of features.

SedonaWeb 1.0 Application Corrections

55258 SW 1.0 version 2.7.82.1 - unable to submit payment [129174, 129361, 129995, 130015, 130696]

Sedona Web Legacy did not pass the procurement_code value to SedonaOffice, failing the SQL stored procedure.

We updated references in SedonaWeb/SedonaAPI 1.0 to the latest payment processing DLLs in 6.2.0.19. We also added the TaxAmount property to the InvoiceItem class.

Special Upgrade/Installation Instructions

If your company uses SedonaWeb API, IT will update the version at the same time as your SedonaOffice upgrade. This is to ensure compatibility with all modules using SedonaWeb 1.0.

.NET Framework 4.8 automatically uses TLS 1.2. TLS 1.2 must be the only TLS version Enabled in the Registry. TLS 1.0 and TLS 1.1 must be disabled. Verify that they are disabled and that TLS 1.2 is enabled.

Supported Environments

- This version of SedonaWeb 1.0 requires SedonaOffice version 6.2.0.19 or above.
- Server (where SedonaWeb 1.0 is installed) has Microsoft .NET 4.8 installed.
