

SedonaWeb/SedonaAPI 2.0 Release Notes

February 2025

Version 1.49.1 **INTERNAL COPY**

NOTE: This is a preliminary version of the release notes. The listed features are targeted for this release; however, not all features are guaranteed to be in the final release. The final release notes will have the finalized list of features.

SedonaWeb 2.0 Application Corrections

55447 Procedure or function 'ACH_Add' expects parameter '@procurement_code', which was not supplied [00129943]

We added the latest payment DLLs to SedonaWeb/SedonaAPI 2.0. to resolve this issue.

Special Upgrade/Installation Instructions

If your company uses SedonaWeb 2.0/SedonaAPI 2.0, IT will update the version at the same time as your SedonaOffice upgrade. This is to ensure compatibility with all modules using SedonaWeb 2.0/SedonaAPI 2.0.

.NET Framework 4.8 automatically uses TLS 1.2. TLS 1.2 must be the only TLS version Enabled in the Registry. TLS 1.0 and TLS 1.1 must be disabled. Verify that they are disabled and that TLS 1.2 is enabled.

Supported Environments

- This version of SedonaWeb 2.0/SedonaAPI 2.0 requires SedonaOffice version 6.2.0.19 hotfix 4 or above.
- Server (where SedonaWeb 2.0 is installed) has Microsoft .NET 4.8 installed.

Internal Changes (not on customer release notes)

55226 Invoice Group Number error in Sales Automation []

Pushing a proposal from Sales Automation that created a new customer/site/system in SedonaOffice returned an error that the Invoice_Group_Number cannot be NULL.

We resolved by using the default invoice group for new customers added via POST /api/Customer and POST /api/app/customers.
